PRESS RELEASE

ERO presents the Proposal for Tariff Structure to the Parliamentary Committee for Economic Development, Infrastructure, Trade and Industry

As part of public consultations on Proposal for Electricity Tariff Structure, representatives of Energy Regulatory Office (ERO), upon the request of Parliamentary Committee for Economic Development, Infrastructure, Trade and Industry, today presented the Proposal for Tariff Structure and the impact that it will have on all customer categories. During the meeting, members of the Committee required from ERO representatives to presents some examples of customer invoices from different consumption categories, in order to be informed in details on the impacts that the changes in the proposed Tariff Structure will have on these customers.

Today's meeting is a continuation of meetings and presentations that ERO is carrying out to discuss the Proposal for Tariff Structure will all interested parties. Apropos, ERO also held an open public hearing will all interested parties as well as separate meetings with business representatives and civil society. ERO also continues to receive comments from interested parties by e-mail; therefore all comments will be part of final review that is expected to take place in the next Board session.
