ANNOUNCEMENT – PUBLIC DISCUSSION

Consultation Papers on DSO and TSO/MO MAR

The Energy Regulatory Office (ERO) is currently carrying out the Regular Adjustment and Annual Update process for the Maximum Allowed Revenues (MAR) to be recovered by the regulated companies of electricity sector in the country. Under this process, following the submission of proposals by regulated companies, ERO carried out analysis and preliminary evaluations, and published for public discussion the Consultation Papers for Calculation of Maximum Allowed Revenues for Transmission System Operator and Market Operator (TSO/MO), Distribution System Operator (DSO, KEDS) and Universal Service Supplier.

In July 2016, the Assembly of the Republic of Kosovo approved the new laws for energy sector, which resulted in essential changes in the regulation of the sector. This is the first year that ERO undertakes a Tariff Review with the new applicable laws in energy sector in Kosovo. The new circumstances which result from these legal changes are challenging for ERO and all stakeholders. Therefore, ERO invites the regulated companies, customers and all other stakeholders to contribute in this process, by reviewing and commenting the data and their views on these Consultation Papers, in order to have more accurate evaluations of Maximum Allowed Revenues for regulated operators.

ERO invites all interested parties to submit their written comments related to ERO's evaluation, by **14 March 2017** at the latest, at ero.pricing-tariffs@ero-ks.org or via postal address at:

Energy Regulatory Office
Tariffs and Pricing Department
St. Dervish Rozhaja No. 12, Pristina, 10000, Kosovo

These Papers are preliminary evaluations and do not represent a decision of ERO. Based on MAR allowed by ERO, the regulated companies shall propose their tariffs for the regulatory year 1 April 2017-31 March 2018.
