## PRESS RELEASE

### VIII<sup>th</sup> Session of ERO Board in 2017

In its VIII<sup>th</sup> session for this year, held on 10 May 2017, the Board of Energy Regulatory Office (ERO) approved the Rule on Capital Projects Assessment in Transmission and Distribution Network. This Rule determinates the process of submitting the proposed investments plans by Transmission System Operator, Market Operator and Distribution System Operator, the costs of which shall be recovered by regulated tariffs, as part of each Multi-Year Tariff Review. The Rule also determines the data, evidence and justifications that shall be submitted by the above-mentioned licensees to support their proposed investment plans.

In this session, the Board also decided on issuance of Preliminary Authorizations to PUNA LLC, for construction of new generation capacities from the hydro power plants HPP Radesha 1 CA, with an installed capacity of 0.71 MW and HPP Radesha 2 CA, with an installed capacity of 1.71 MW, in the Municipality of Dragash.

In this session, the Board also reviewed the request of “HIDROENERGJI” LLC, on modification of Final Authorization for construction of HPP Lepenci 3, from the installed capacity of 8.5 MW to the installed capacity of 9.98 MW, in the Municipality of Kaçanik.

The Board also reviewed and issued decisions on some complaints of customers in energy sector.
