Ms. Resmije Ahma, Director of Legal and Regulatory Department, KOSTT j.s.c.
Ms. Fllanza Hoxha, KEDS – PIU Project Manager

Subject: ETR7 Reporting Templates

Dear all,

Thank you for the comments provided and the active participation during ERO's recent consultation stage for the Reporting Templates, on behalf of the Seventh (Multi-year) Electricity Tariff Review (ETR7).

During the consultation process, ERO met with your experts to address concerns that were raised in your comments. I now attach the final¹ version of the templates which reflect agreements reached in the various meetings held between ERO and the licensees.

As envisaged in the ETR7 initiation letter, the deadline for submitting the templates to ERO is 31 August 2012. You will have the opportunity to present your application on the public session envisaged for 3 September 2012. In the meantime, you may contact ERO for any further questions that you may have on the data required in the templates. These questions should be expressed in writing and addressed to ero.pricing-tariffs@ero-ks.org.

ERO will use the information provided by licensees to assess costs of carrying out licensed activities over the period of the multi-year price control. Licensees must use their best endeavors to supply information that is complete and accurate, and to indicate any relevant factors relating to individual items of data, including the basis on which they were developed and any assumptions or estimates that have been made. All information provided by licensees in the templates must be authorized and approved by the Board, and a statement to this effect must be included in the licensee's submission.

Best regards,

Enver Halimi

¹ The DS8 sheet of the templates may undergo further revision subject to KEK comments that will be sent on 9 July 2012. ERO may send an updated version of the templates and these updates may affect only the worksheet concerned.
