Based on:

Provisions of Articles 14 and 25 of Law on Energy Regulator,  
Provisions of Article 22 of the Rule on Licensing of Energy Activities in Kosovo,  
Provisions of Article 4 of the Transmission System Operator License;  
Request of the OCGC on amending of the Balancing Code, dated 13 January 2015,

**in its session held on 20 February 2015, issued the following:**

## DECISION

- I. Amending of the document: "Balancing Code" of KOSTT JSC is hereby **APPROVED**.

## Reasoning

- Energy Regulatory Office (ERO), on 29.12.2014, received the request of the OCGC on amending of Balancing Code aligned with the ENTSO-E (*European Network of Transmission System Operators for Electricity*) Operation Handbook. In this context, there were made also some insertion of items, linguistic improvements and text adjustments.
  - ERO, as an active participant in the OCGC, provided comments during the amending period.
  - Following these developments, the OCGC has amended the document in line with the amendments, and on 13 January 2015 filed an official request with the ERO for approval of the amending of the Balancing Code.
  - Following the assessment of the request, ERO deemed as reasonable to approve the amending of the Balancing Code.
  - All other provisions of the Balance Code shall remain in force.
- II. The Decision shall be issued in Albanian language and will be translated into Serbian and English. In case of any discrepancy between the versions, the Albanian version shall prevail.

III. This Decision shall enter into force on the date of approval by the Board and will be published in the ERO's official website, along with the document. The document will be published also in the website of KOSTT.

**Legal advice:** The party dissatisfied with this Decision may initiate an administrative dispute at the Competent Court, within thirty (30) days from the date of receipt of this Decision or the date of its publication in the ERO website, whichever occurs last.

*Enclosed: Document with the amended items of the Balancing Code and the ammended Balancing Code.*
