

27 January 2023

PRESS RELEASE

First Session of ERO Board

Today, the Board of Energy Regulatory Office (ERO) held its first session for this year.

In this session, following the review, ERO Board approved the Annual Electricity Balance for 2023. The main purpose of this Annual Electricity Balance is to project the fulfilment of customer electricity needs, in sufficient amounts during the year, engaging the capacities of electricity production and import.

In addition to that, the Board reviewed the comments from the public generator KEK regarding the monitoring of electricity sale and purchase, as well as comments of KOSTT, regarding the monitoring of electricity purchases, payments and nominations for transmission system operator (KOSTT).

In this session, the Board reviewed and approved the list of taxes and services for Distribution System Operator (KEDS) and approved 5 requests of customers for authorization for self-consumption, three submitted from the companies and two from natural applicants with a total of 194.4 kW.

Part of the review from the Board were also some customer complaints and other issues related to the functioning of the sector as well as the Energy Regulatory Office.

All decisions of the Board will be published on the electronic website of ERO www.ero-ks.org.
