

PRESS RELEASE

Fourth Session of ERO Board

In the fourth session of the Board of Energy Regulatory Office (ERO), held on 15 October 2021, the Board decided on approval of the application for licensing of electricity generation activity from wind turbines, of the company SOWI KOSOVO LLC – Selac 1, in the municipality of Mitrovica, with a capacity of 34.47 MW.

The Board has also decided on extension of the license for thermal energy distribution activities to the Public Enterprise Termokos JSC and two authorizations were issued for the installation of equipment for generation of electricity from solar panels for self – consumption, with a capacity of 36.5 kW.

Other issues related to the regulation of the energy sector as well as the management of the Energy Regulatory Office were also reviewed.

All decisions of the ERO Board will be published on ERO's official website www.ero-ks.org
