

29 July 2022

PRESS RELEASE

The tenth (X) ERO Board meeting

Today, on 29.07.2022, at its tenth session, the Energy Regulatory Office Board reviewed and approved the supplementation/amendment of the Rule on Licensing Activities in the Energy Sector; Principles for Determining Fees for Use and Taxes for Connection to the Distribution System; Tax Methodology for Connection to the Distribution Network, Development Plan 2022-2031 of DH Termokos, as well as 16 authorizations for the construction of solar panels for self-consumption with a total capacity of 457.1 KW were granted.

In this session, after reviewing the proposal of the committee for the Determination of the Supplier of Last Resort, the ERO Board, in accordance with the legal requirements of Law on the Energy Regulator, designated the Energy Corporation of Kosovo KEK as the Supplier of Last Resort for a period of three (3) years.

Today, in this session, the Board has also reviewed some consumer complaints, as well as other issues related to the management of the Energy Regulatory Office.

All ERO Board decisions will be published on the official ERO website www.ero-ks.org.
